

SHARING

From Katharina N: I would appreciate prayers for my uncle, Walter, who had a brain aneurysm on March 14 and is in intensive care in a coma. We are thankful that they had a spot for him and that he was able to have surgery right away, but we are very much hoping and praying for positive steps in his recovery in the coming weeks. The fact that visitors are not allowed at the hospital right now makes this harder, especially for my aunt and cousin. Our family was supposed to leave for Germany next weekend to spend time with my family (which, of course, is not happening now), so being far away is hard on both those counts right now.

Karen M K requests prayers for the CMU Outtatown group, that – at the time of Karen’s sharing – was still in Guatemala, doing well, but having to stay there indefinitely because of the travel issues connected with Covid 19.
